

## Client Profile

## Signature Landscape Gives Pointe Royal Royal Treatment

The Pointe Royal community covers 60 acres, 52 buildings and 437 units. Since 1987, this group of townhomes has graced the corner of 123rd Street and Antioch, in Overland Park, Kan., spilling hundreds of thousands of gallons of water over its famous “Royal” blue fountains. The community offers its residents a wide array of amenities, including two outdoor swimming pools, an indoor pool, top-notch facilities and meticulously kept grounds.

Maintaining the grounds surrounding Pointe Royal is a daily undertaking, and Signature Landscape takes pride in assisting in all facets. Since 1990, Signature Landscape has literally transformed the entire face of the Pointe Royal landscape. And then some.

When Signature assumed responsibility for the landscaping of this high-end property, it dug in its heels and got to work. After extensive surveying and planning, irrigation was added to nearly half the high-visibility areas on the property. Multiple landscape add-ons were completed, as well as overall upgrading work on the entire area. “Anybody who comes onto this property just can’t believe how good it looks,” says Joe Lucito, senior service director.

Signature’s trademark attention to detail is evident in every area of the property. And the fantastic thing about Signature, according to Lucito, is the ideal match of teamwork and sensibilities, working together to overcome obstacles and create the unique look of Pointe Royal.

That personal service has helped Signature grow to a \$4 million business in just 10 years. In this visual industry, Signature Landscape has truly made its mark. Everything Signature personnel touch retains the mark of quality for years to come.

“There are just not enough good things I can say about working with Signature,” says Lucito. “I just couldn’t be happier.”
